

GIVE YOUR NETWORK THE SAME HIGH QUALITY CARE AS YOUR PATIENTS WITH A UNIQUE IT SOLUTION FROM JUVO.

From security breaches to telemedicine, the health care space brings unique challenges for those tasked with making IT work for the organization. Whether the task is a **network upgrade** in a large urban location, or securing federal funds for **broadband**

upgrades in rural areas, **there are almost no limits to the ways in which Juvo can help increase the capabilities of even the most capable of IT staffs.**

[ju vo \ju vō] verb [Latin]: to help, aid, assist

Think your size has something to do with whether you should or shouldn't pursue a TEM solution?

The Hospital Corporation of America uses a TEM. One of Juvo's first clients was a Mississippi based, multi-specialty clinic. So if your health care organization boasts somewhere between 5 and 500 locations, chances are, a TEM solution makes sense.

IN A RECENT STUDY OF
100 COMPANIES WITH REVENUES BETWEEN \$25 AND \$500 MILLION
CONDUCTED BY CCMI*:

62%

respondants noted that they could be doing more to control telecom expenses

31%

respondants mentioned not having the time to research TEM options

69%

respondants use off the shelf programs like Excel or Access to track telecom expenses

*CCMI is the choice of the leading telecom companies in the industry and is a trusted source for telecom data and information. Our commitment to delivering high-value products positions us as a leader in the telecom data market. Through our expertise in the telecom industry, we have also delivered high-quality services and events to communication services providers and enterprise end-users since 1971.

Solution: Resolve to give your IT staff some high quality care by taking advantage of all the benefits that come with a Juvo managed solution.
