

# MAKING MONEY IS HARD. WORKING WITH JUVO ISN'T.

At Juvo, we believe the telecom expense management process should be simple and ultimately save you money. We aren't going to overwhelm you with complicated lifecycles and intricate processes (they're there, but do you really want to know about it?) We will, however, guide you through the simple method of saving money with Juvo Technologies.

## WORKING WITH JUVO LOOKS SOMETHING LIKE THIS:

Juvo manages and pays your monthly telecom accounts and bills

You get a monthly bill that has been audited & optimized

Nailed it.  
(This could be you.)

[ju vo \ju vō] verb [Latin]: to help, aid, assist

YOU'VE PROBABLY TURNED THIS PAGE OVER BECAUSE YOU KNOW THERE'S MORE TO SAVING MONEY ON YOUR TELECOM EXPENSES, **BUT IT REALLY IS THAT SIMPLE WITH JUVO TECHNOLOGIES!**

We adhere to a simple four step process (life cycle, if you will) to manage your telecom expenses, **The Four Cornerstones.**

**The Four Cornerstones all work in concert with each other, and therefore, so does our software, Simplicity.** This concerted effort is understood by our team as well, meaning a Juvo solution brings together all the stakeholders within your telecom environment, from the service providers to the end users who **turn that technology into productivity.**
